

GREETINGS FROM TOBAGO!

It is with great pleasure I write this short profile of the ministry in Tobago. Tobago is a small island and one of a twin island state whose population is Approx. 55,000. I arrived in Trinidad in December 2000 and in 2002 the Lord in His providence opened the doors in Tobago for specific ministry. This ministry was to design programs that involved communities, schools and churches in the area of behavior modification concerning HIV/AIDS. This was an interesting calling since it did not specifically deal with church planting but seek to address human needs that opened the doors to share the gospel. In 2005, the government came alongside and partnered with the ministry to deliver a comprehensive prevention program in secondary schools (presently we are in negotiation stage for continuation for the academic year 2010-11.) There are eighteen full time Christian facilitators delivering a character based curriculum in all eight secondary schools. This is the major work. God has wrapped me with the love and care of good Godly relationships. Therefore we operate with a team approach to ministry. Other ministry focus is 1. Pregnancy counseling. 2. Training through Caribbean Bible Training Institute. 3. Supporting churches and communities through a prayer team and organizing Global Day of Prayer.

Specific prayers needs

1. School ministry –that God would continue to give us favor and His name would be exhalted
2. The Government of Trinidad and Tobago –That God would move the nation to good governance.
3. Caribbean Bible Training Institute – that God would give specific direction for a full time couple to manage this ministry.
